Subject: My voicemail

Hi Adrian- I just wanted to let you know that I left a voicemail yesterday regarding our analysis of Issue 10. In looking back at our analysis of this issue, it became apparent to us we have not yet completed a review of Wisconsin's new rules pertaining to one of the three parts of that Issue (the TMDL issue). I really apologize that this fell through the cracks on our end.

While we started reviewing the portion of the issue pertaining to TMDL requirements in the Great Lakes basin, we have not yet completed our review. As such, we are planning to move forward to resolve 20 issues in RP 3 and 4 ASAP pending final Office of Regional Counsel review and RA signature and we will then work quickly to complete our review of the TMDL rule with our counterparts in Wetlands and Watershed Branch. I heard that Kevin Kirsch was likely the person in your group who could help walk us through that part of your rule if needed. If that is the case, is it okay with you for our folks (Mark Ackerman and/or Mark Compton) to reach out to Kevin to discuss this further?

Also, I wanted to let you know that we intend to update the status chart upon Bob's signature of the RP 3 and 4 package and to reflect the agreements we made at our September meeting and the email yesterday pertaining to RP5. If you have questions about that or want to talk about it before we post it, please let me know.

Candice
